Test basic functionality: This is a simple test paragraph with regular text. It should wrap correctly within the page margins and use proper typography.

This is a second paragraph with special characters: àáâãäåæçèéêëìíîïñòóôõöøùúûüýÿ and symbols like €$£¥©®™

Here's a list of items:
- First item with bullet point
- Second item with more text
- Third item that might be longer and should wrap properly within the margins

1. Numbered list item one
2. Numbered list item two with more content that extends beyond normal width
3. Final numbered item

This is a very long paragraph that should test the text wrapping functionality to ensure that it properly breaks lines and doesn't overflow the page margins.
